The proud hand-off

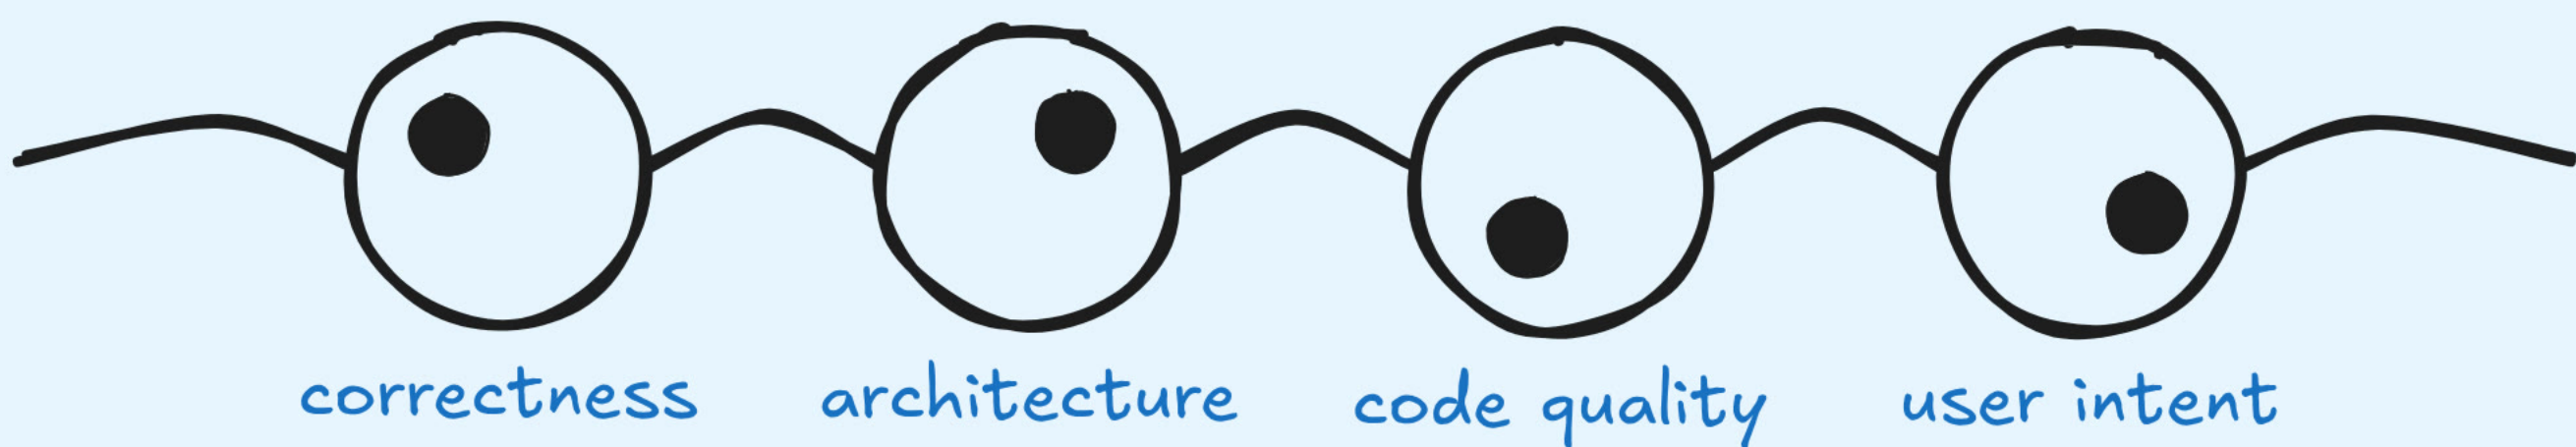

Behold: feature/everything!
4,000 lines.
Ship it?

Lovely. Let me invite two
models who disagree with
everything.

Step 2 of 6

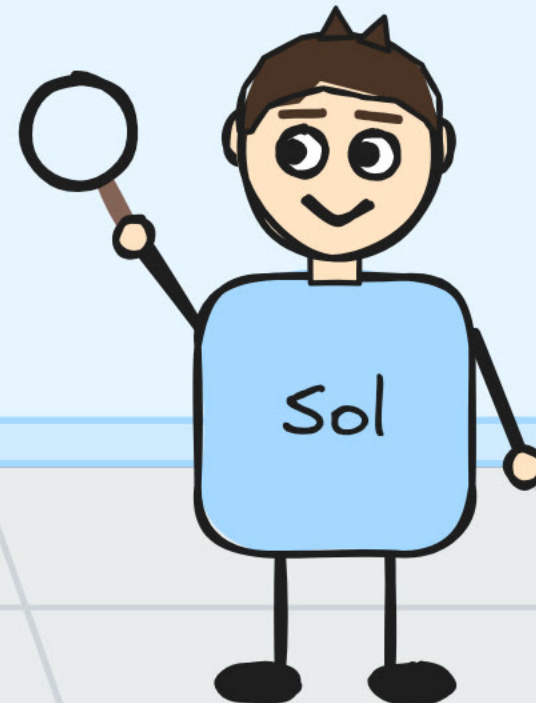

Both models read the whole
branch, through four lenses

F1 · correctness:
line 42 divides by zero!

F2 · user intent:
they asked for a dark-mode toggle,
not a rewrite in Rust.

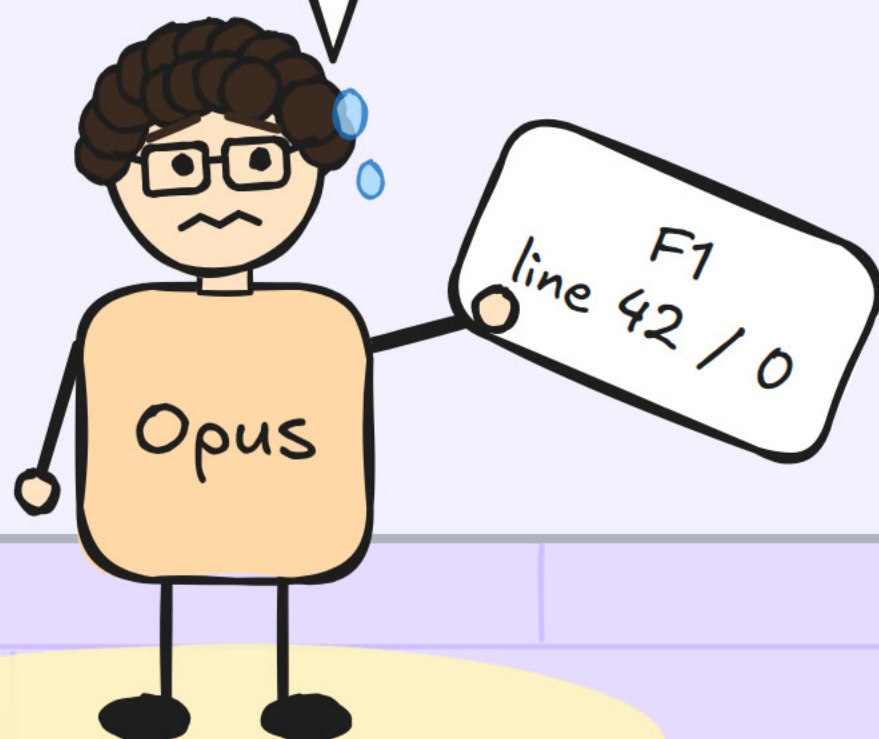

Step 3 of 6

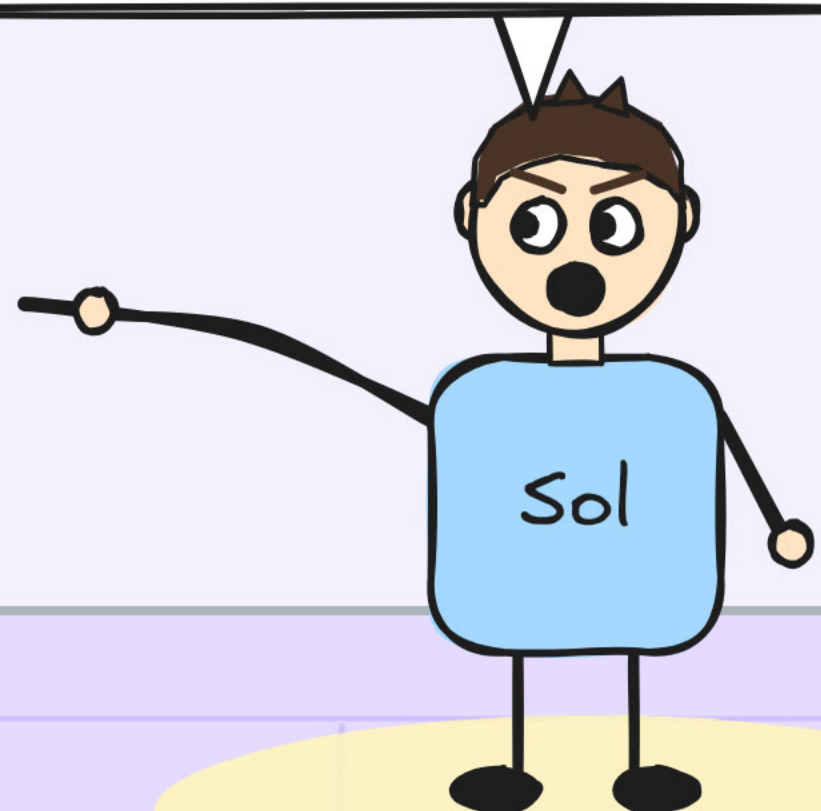

The other model challenges every finding

OBJECTION!

...I may have read it upside down.

F1: line 40 already returns early when n is 0!

Step 4 of 6

The judge decides what stands

F1: KILLED. Line 40 guards it.
Who wrote this?!

F2: CONFIRMED. Nobody asked for Rust.

BANG!

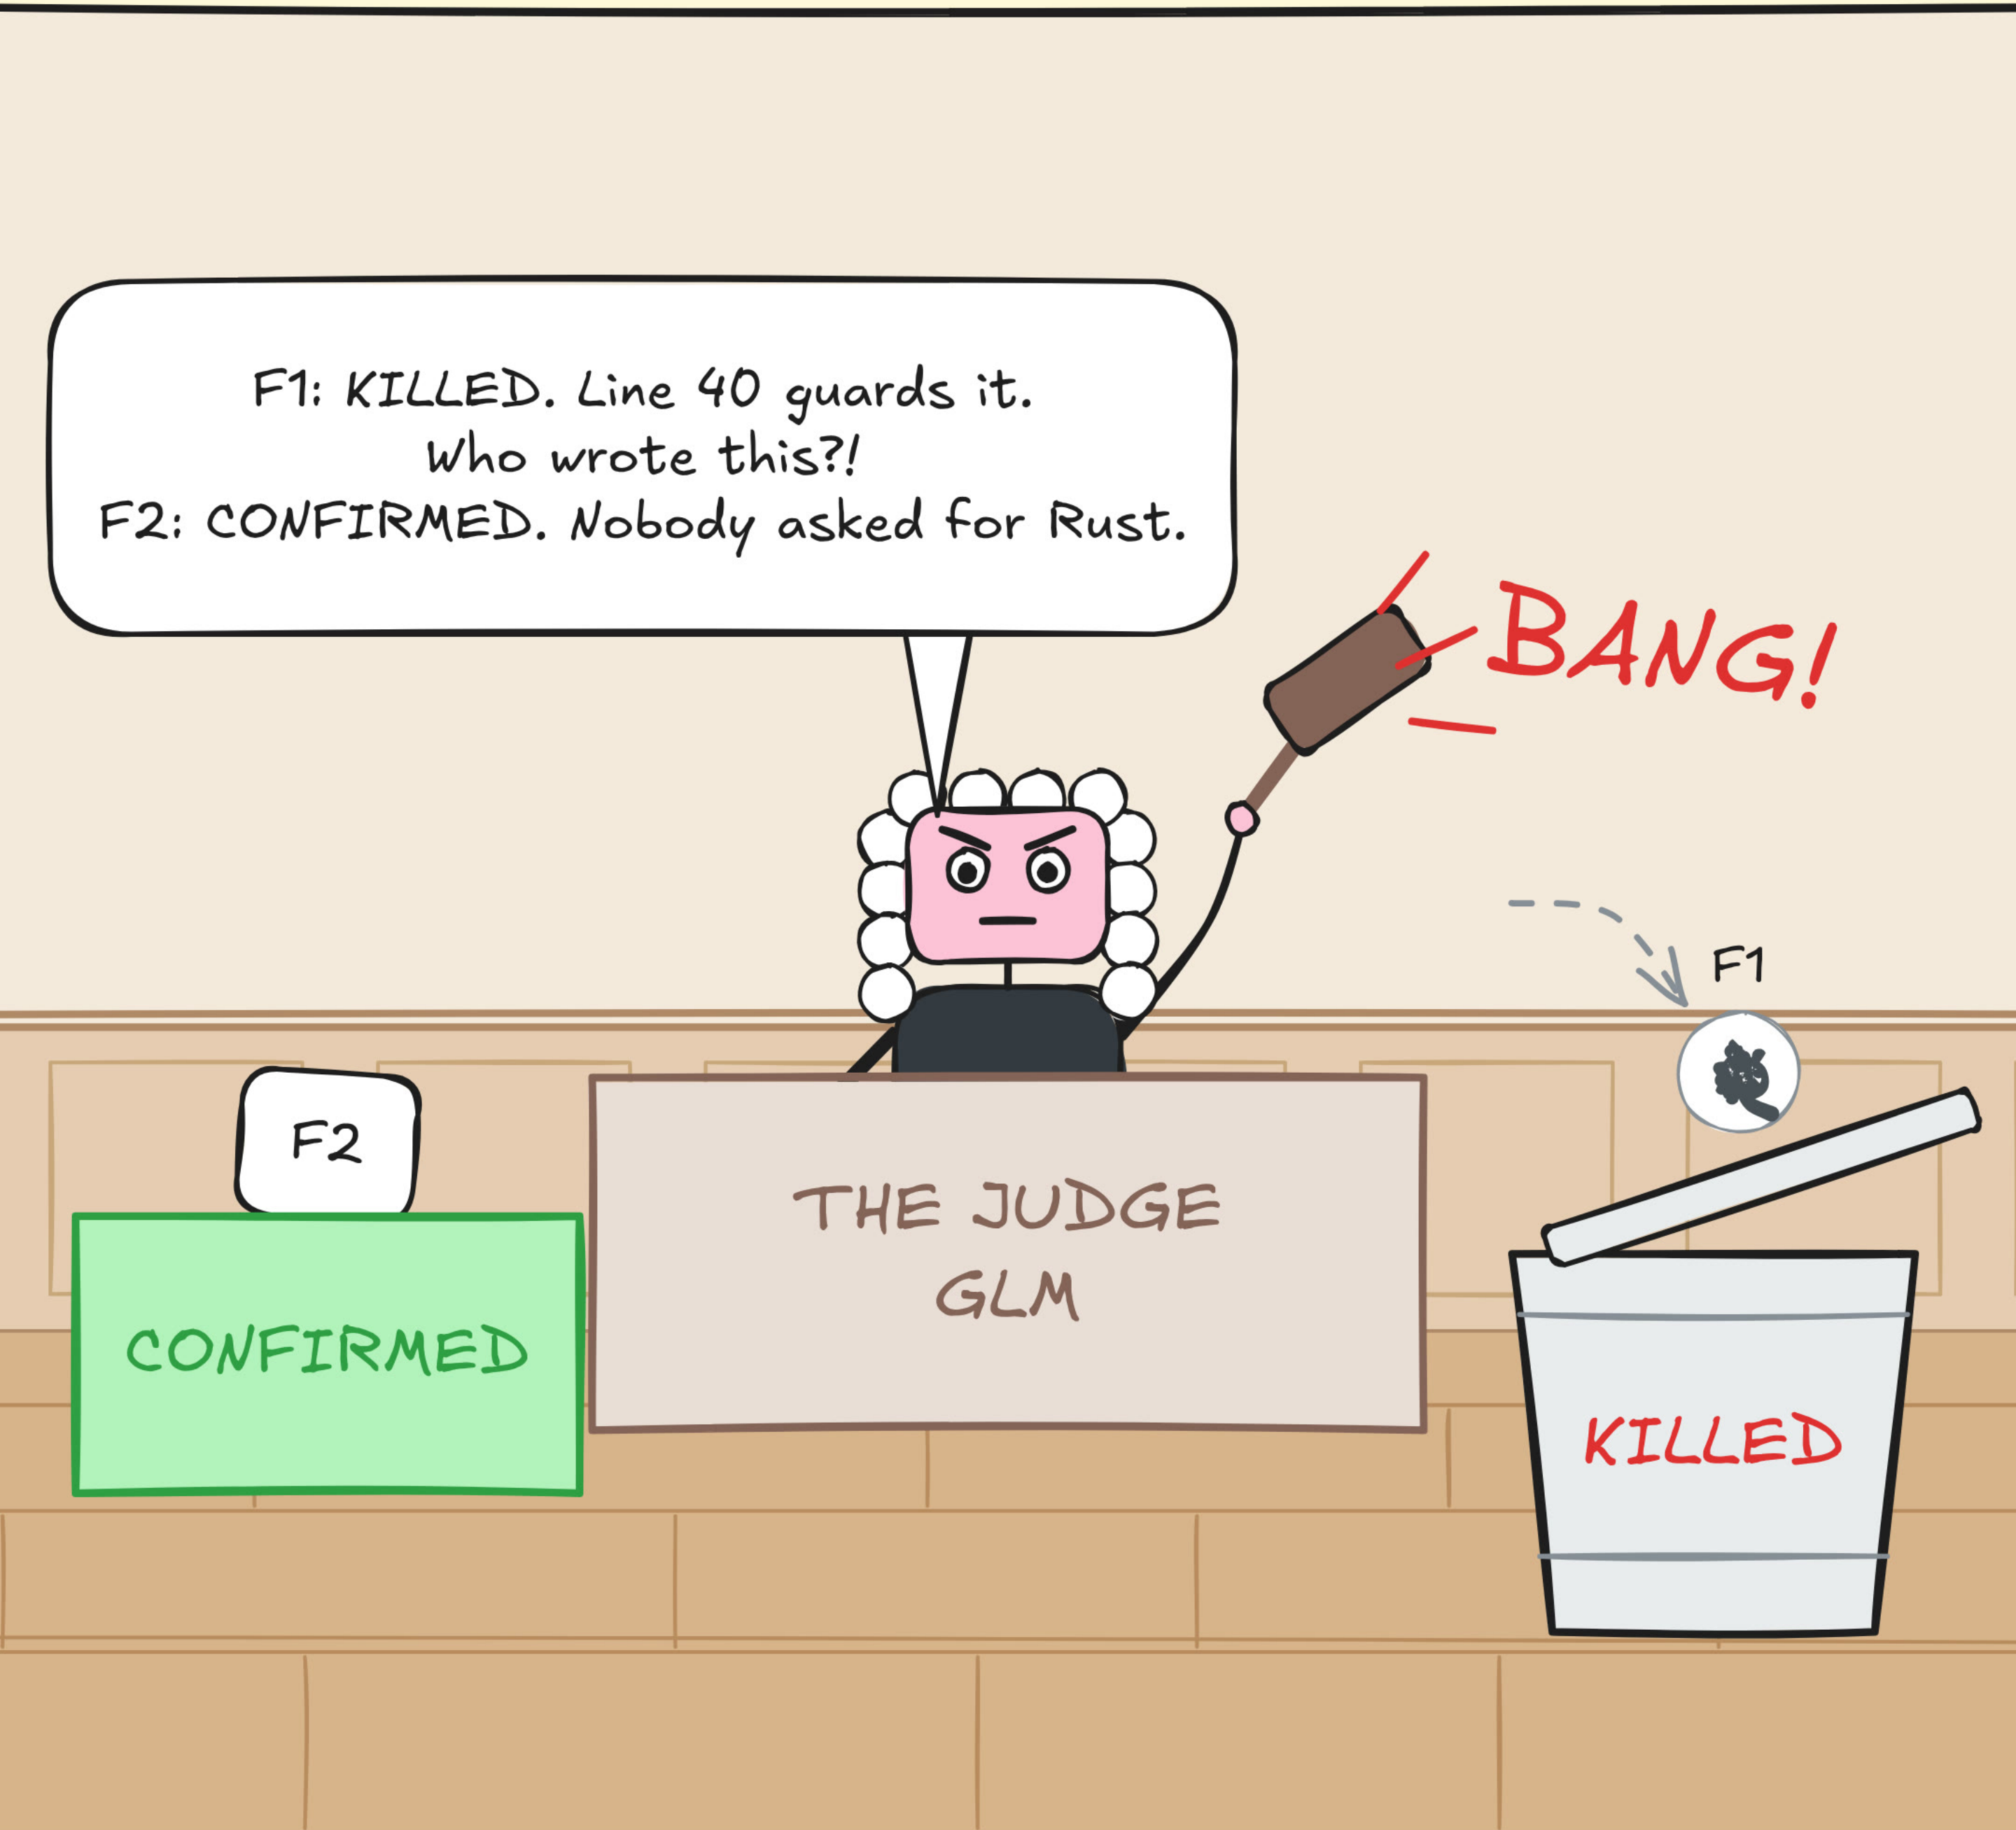

F1

F2

CONFIRMED

THE JUDGE
GLM

KILLED

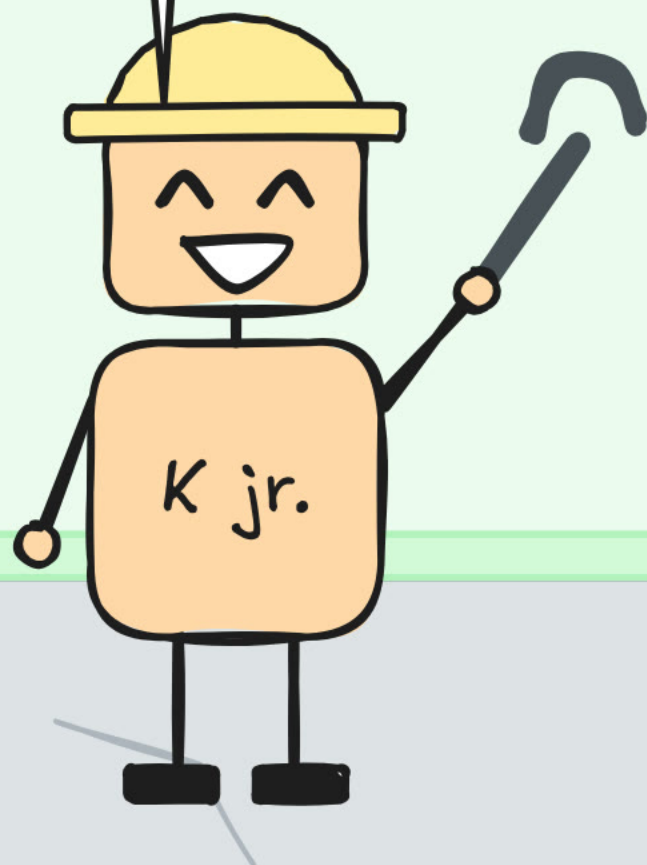

Step 5 of 6

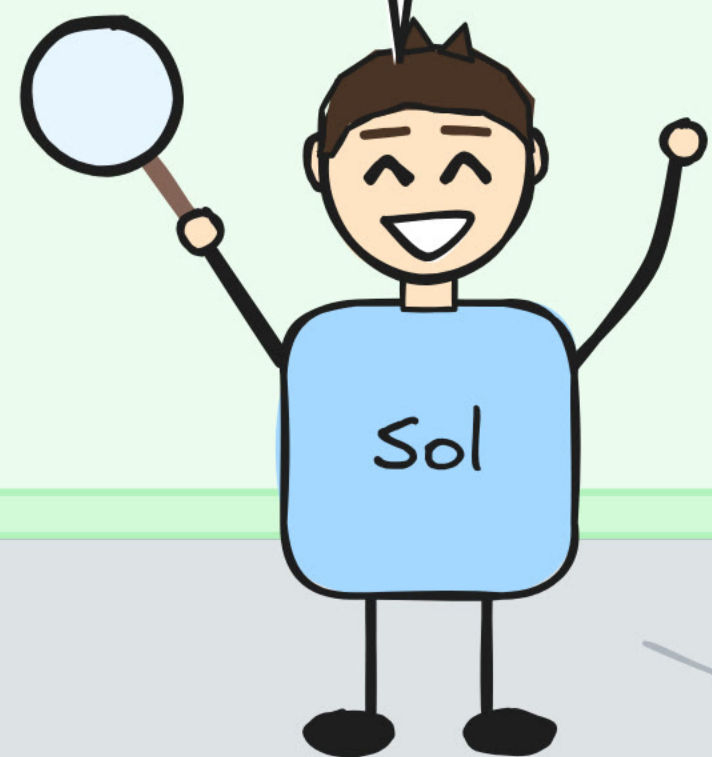

With --fix: repair, then
verify

Fixed F2! Touched nothing
else. Promise.

Nice job!

F2
HELD

Step 6 of 6

The verdict lands on the PR
